

APSE Transport Network - fuelling concerns – the impact of the fuel price increases on your fleet

Tuesday 28 April, 2pm, online

[Click here to sign up](#)

Fuel prices have been rising since the recent Middle East conflict and APSE is studying the impact on your local authority fleets and budgets and bring people together to look at trends, business contingency plans, impact on decarbonisation, and any good practice to mitigate the increases.

This online Transport network is designed for LA transport and fleet officers and managers to come together and discuss these issues, hear from expert speakers and we will also be looking at how to be involved in APSE benchmarking for this year.

Agenda

- **Welcome from the Chair**
Cllr Lynne Short, Dundee City Council and Tayside Contracts Committee Member
- **Comparing your transport service – how to get involved in benchmarking for 2026**
Debbie Johns, Head of APSE Performance Networks
- **What you have been saying: Fuelling Concerns Survey Results – the impact of fuel prices on APSE member authorities**
Bonni Jee, Principal Advisor, APSE
- **Fuel prices and the nationwide impact on our sector - the view from Logistics UK**
Maddi Solloway-Price, Head of Road Freight and English Regions Policy, Logistics UK
- **Alternative fuel considerations for LAs and sustainable energy solutions for the future of transport**
Nick Bridle MAFP, CMILT, MSOE
APSE Associate Senior Industry Consultant – Fleet Technology
- **Group discussion – key trends and issues in local authority fleet and transport**

[There is still time to have your say!](#)

If you haven't done so already, >>> [Click here to complete survey](#) <<< to let us know the impact of the increasing fuel prices on your authority and fleet to be counted as part of our LA-wide findings that will be shared at the meeting.
