Sports and Leisure

State of the Market 2019

APSE conducted an online survey between June and July 2019. A series of questions were asked covering a range of issues of interest to those officers, managers and councillors responsible for Sports and Leisure services.

State of the Market surveys are an attempt to understand perceptions of the market amongst people directly involved in delivering services.

There were 82 responses from local authorities to this survey. None of the questions were mandatory, so the total amount of responses differs from question to question. Individual details of respondents have been kept confidential. Results of the survey should be treated as a snapshot of current opinions of those working in sports and leisure services rather than a thorough analysis of change over time.

Survey respondents by location:
