DVSA : What we do

- HGV & PSV Testing & Inspection
- Roadside Enforcement & Compliance
- HGV & PSV Operator Licensing
- Light Vehicle MOT Scheme Authorisation & Compliance
- Accident Investigation
- Vehicle Recalls
- Individual Vehicle Approval (IVA)
- Training & Education
- Driver Theory & Practical Testing

MOT Scheme: A Joint Vision

A modernised MOT industry which is empowered to use the best technology to deliver high quality tests...

Test quality is the default

Competitive and profitable industry

Consumer confidence in service

Professional MOT Scheme

Improve public safety and deliver value for money

Benefits of the new service

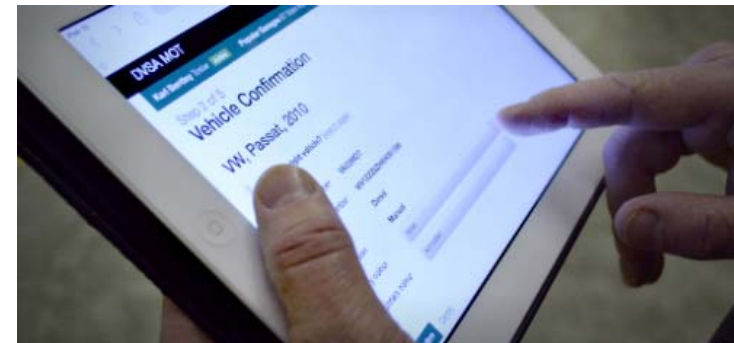

MOT Comp

- externally controlled
- expensive
- difficult to update
- restrictive

MOT testing service

- in-house
- cost-effective
- easy to update
- agile

Sites to provide own IT

- AE's and sites responsible for their own IT equipment
- Testers can use PCs, Apple Macs, laptops and tablets to enter test results either during or after a vehicle examination
- AE's and sites to provide own broadband
- AE's and sites to provide their own printers, paper and ink
- New system is accessed just like any other website

Transition to the new service

- 18,300 + Authorised Examiners
- 22,500 + Vehicle Testing Stations
- 80,000 + System Users

All these had to be transitioned by 23 Sept 2015

- Driver and Vehicle Licensing Agency (DVLA)
- Electronic Vehicle Licensing (EVL) – Post Office
- Police Network Computers (PNC)
- Automated Number Plate Recognition (ANPR)
- MOT status and MOT history checks

Where we are now

- 18,300 + Authorised Examiners - Transitioned
- 22,500 + Vehicle Testing Stations - Transitioned
- 80,000 + System Users - Transitioned
- More Than 150,000 MOT Tests Recorded Daily
- Over 3,700,000 Tests Completed On The New Service
