

Creating resilience during Covid19

Redeployment

- How this came about.
- What that meant to me.
- What that meant to the organisation.

Needing extra help

- Perceptions.
- What we did to try and change perceptions.
- What worked well.

Culture

- What we could not change within this time frame.
- How that is reflected in our culture and conversations about death and bereavement.
- Associated barriers connected to working in the sector.

Some humble observations as a Parkie!

- Least responsible yet most responsible.
- Level of care and attention to detail was beautiful to see and blew my mind.
- Romance right up until your last wish.
- Thank you.
