

APSE Scotland Fleet, Transport and Vehicle Maintenance Advisory Group Meeting
Wilsons Auctions Heritage Centre, Ayrshire
Wednesday 4 September 2024 11AM to 12.30PM

Discussion items

- 1. Jamie Dunsmore of Transport Scotland – Local authority update (inv)**
This will provide Jamie with the opportunity to update local authority colleagues on any developments and progress of current decarbonisation aims and objectives and for colleagues to ask any questions.

- 2. Standing item - Fit to Drive**
This will provide colleagues with the opportunity to discuss and share any information or experiences.

- 3. Fleet replacement programmes**
This will provide colleagues with the opportunity to discuss their fleet replacement programmes and hear more about the work of the SOLACE/ IS transformation programme (fleet procurement subgroup) in relation to this subject.

- 4. Fleet Software Systems**
This will provide colleagues with the opportunity to discuss and share information on their fleet software systems and also hear how this links with the work of SOLACE/ IS transformation programme (fleet procurement subgroup).

- 5. VETS – Vehicle Emissions Trading Schemes 2023**
This will provide colleagues with the opportunity to discuss and share any information on this relating to future procurement.

- 6. HVO project development and trials**
This will provide colleagues with the opportunity to share and discuss and projects or trials with HVO.

- 7. Telematics programme (Tracker and Weigh Scales)**
This will provide colleagues with the opportunity to hear on the progress of this from a local authority.
