APSE Energy

The goal of this collaboration is to deliver the local municipalisation of energy services and in doing so:

- address social objectives and deliver community benefits, such as a reduction in fuel poverty and increases in jobs and skills
- save money and make money for local authorities to safeguard local services

The vision and goals shows that a wider view of energy is being considered and its link to Council services at local level. The benefits of the achieving the vision include:

- Localised energy supplies increasing energy security and resilience to energy price fluctuations
- Achieving energy decarbonisation goals
- Resolution of social issues associated with energy costs such as fuel poverty
- Local economic benefit via income generation and increase in jobs and skills within the green energy sector
- Turning local authority energy, carbon and renewables targets into delivery
