16:00 Seminar end

Seminar Objectives

About the Seminar

Local Authority Fleet operations are the essential element in ensuring the continued delivery of front-line Council services. To ensure well run in-house fleet and maintenance services stay ahead of the game, this seminar brings together the elements that influence future success.

Speakers will cover the national picture, the regulatory context, human, financial and legal issues and strategies for maintaining efficient operations. The seminar will also take a look at innovation, the transition to cleaner fuels, self-regulation and ensuring continued efficient delivery of fleet services.

Since the pandemic hit in 2020, Transport services have in the main adapted and continued to deliver high quality services. The economic effects of COVID, Brexit, War in Ukraine, spiralling fuel prices, driver shortages, recruitment difficulties and a race for carbon neutrality have given the industry multiple headaches at the same time. The job of today's transport manager is more complex than ever.

Venue

**The National Conference Centre,
Coventry Rd,
Bickenhill,
Hampton in Arden,
Solihull,
B92 0EJ**

Delegate Packages Exclusive of VAT
