# The challenge faced

---

Managing a global tree estate – a complex challenge

- 13k locations across the UK & many more overseas
- Diverse species, landscapes, and risks
- Fragmented / inconsistent data and governance

# The innovation

Introducing a single digital system

- One global platform
- Live, mobile-friendly access
- Used by staff & contractors
- Standardised data & workflows

---

# Supporting a global programme

---

From strategy to delivery: 39,000 trees for 2039

- Central coordination
- Transparent reporting
- Long-term maintenance planning
- Global consistency
