

***“South Tyneside’s
Recycling Village
- Ten Years On”***

Tom Turner

Waste Disposal Contracts Manager; South Tyneside Council

South Tyneside Council

First – a look back ...

- **Image**
- **Open skips**
- **High lifts**
- **Environment**
- **Little or no recovery**

South Tyneside Council

Re-defining “waste” as a resource to be used was to be the foundation of our approach

South Tyneside Council

Changing the perception of waste will:

- Give us greater access to recycling opportunities
- Help us progress towards our recycling targets
- Aid in complying with the Landfill Directive, ODS, WEEE, HHW ...
- Help reduce the landfilling of BMW
- Increase participation in recycling

South Tyneside Council

A “state of the art” RECYCLING VILLAGE

**the cornerstone of our approach to
waste**

South Tyneside Council

An opportunity to influence and change the mindset of the public with regard to waste

- **Image change - recycling rather than tip**
- **More room to segregate materials for recycling / reuse**
- **User-friendly traffic management regime**
- **A better and new experience**

South Tyneside Council

DEFRA Rounds 3 & 4

- Detailed Application
- Accurate Costing
- Outline of design
- Benefits

South Tyneside Council

- **Design Brief**

**TENDER FOR THE DESIGN OF A "RECYCLING
VILLAGE" / HWRC**

**South Tyneside Council
Brief for Tenderers for the design of a
Recycling Village / Household Waste
Recycling Centre**

A new approach

South Tyneside Council

South Tyneside Council

South Tyneside Council

Proposed Design

- **Prestigious, state of the art designed by experienced consultants.**
- **High degree of sensitive landscaping and planting.**
- **Split level – no steps to climb for recycling.**
- **Part covered, protecting against the weather preventing “peaks” of demand.**
- **Adequate footprint for segregation of materials.**
- **Clear on-site signage and education information.**

Proposed Design (2)

- **Traffic management to prevent congestion**
- **Easy access to containers.**
- **All materials to be under cover.**
- **Separate area for reusable items.**
- **Separate area for electrical items.**
- **Large range of containers for recycling materials.**
- **Access to recycling containers at waist height.**
- **Retail outlet for refurbished items and compost, etc.**

Site Management

New contract regime:-

- **Very stringent specification.**
- **All staff are direct employees of competent contractor.**
- **High cleanliness standard – no litter / dust.**
- **Recycling facilities always available.**
- **Regular inspections from Council Officers.**
- **No trade materials will be accepted but redirected to separate TS site.**

Impact Mitigations

- **Prestigious Development – not “tip”.**
- **Signage of traffic through main routes**
- **Extensive opening hours to prevent fly-tipping.**
- **Swift removal of “waste”**
- **Sympathetic site operations such as “warble tone” reversing alarms to prevent noise.**

Design Brief

- **Sent to three internationally recognised Design Consultants**
- **Date set for submission of outline proposals**

Awards for Excellence

in recycling and waste management

2007

WINNER

South Tyneside Council

Successes

- **Flexibility – able to adapt to seasonal material demands and tonnages**

2011/12 – 10665 tonnes (63% recycling/recovery)

2012/13 – 10770 tonnes (64% recycling/recovery)

2013/14 – 13426 tonnes (59% recycling/recovery)

2014/15 – 14250 tonnes (60% recycling/recovery)

2015/16 – 15300 tonnes (59% recycling/recovery)

2016/17 – 15289 tonnes (58% recycling/recovery)

South Tyneside Council

Successes

- Protection against the weather preventing “peaks” of demand. All materials under cover.
- Adequate capacity for segregation of materials.
- Clear on-site signage and education information.

Successes

- Easy access to containers, at waist height.

South Tyneside Council

Successes

- Guide Rails – preventing damage – none in 10 years

South Tyneside Council

Successes

- Flexibility in operation

South Tyneside Council

Successes

- Retail outlet for refurbished items and compost, etc.

South Tyneside Council

Successes

- Separate area for electrical items.

South Tyneside Council

Successes

- Large range of containers for recycling materials.

South Tyneside Council

Areas of Concern

- Victims of our own success?

South Tyneside Council

The End Result

It does exactly what it says on the tin!

South Tyneside Council
