

Bristol Energy

Strategic Projects & Individual Benefits

Samantha Nicol

Head of Innovation and Marketing

BRISTOL
energy

Hi, we're

BRISTOL energy

Nice to meet you.

Today's Topic

- City Leap – tackling climate change through infrastructure investment
- Voids and the new world post energy cap
- Smart Meters here we go again.

Bristol Energy – Who are we?

A sustainable energy company that has social value at its heart.

- Electricity and Gas supplier across the UK (Residential, Business and Portfolio)
- Supply 160,000 domestic meter points; 2500 business sites, 54 agreements with generators (PPAs)
- Owned by Bristol City Council

- Social and economic value to communities
 - Commitment to reducing Fuel Poverty
- Supporting renewables and carbon neutral targets

**The UK is
transitioning to a
decentralised
energy system**

A future city energy landscape?

The vision for Bristol's City Leap Programme

- To create an interconnected, low-carbon, smart and resilient energy ecosystem
- Deliver up to £1bn of low carbon, smart energy infrastructure investment over the next 10 years
- To take a significant step towards carbon neutrality by increasing the deployment of renewable energy and low-carbon technology, particularly heat networks, energy efficiency and transport.

What's next for City Leap

Moving to procurement phase

Proof of concepts have started

Community engagement is critical

We can share more in April... Stay tuned.

Voids ... a new world

Smart meters ... here we go again.

We need to offer better value, useful & smarter products & services

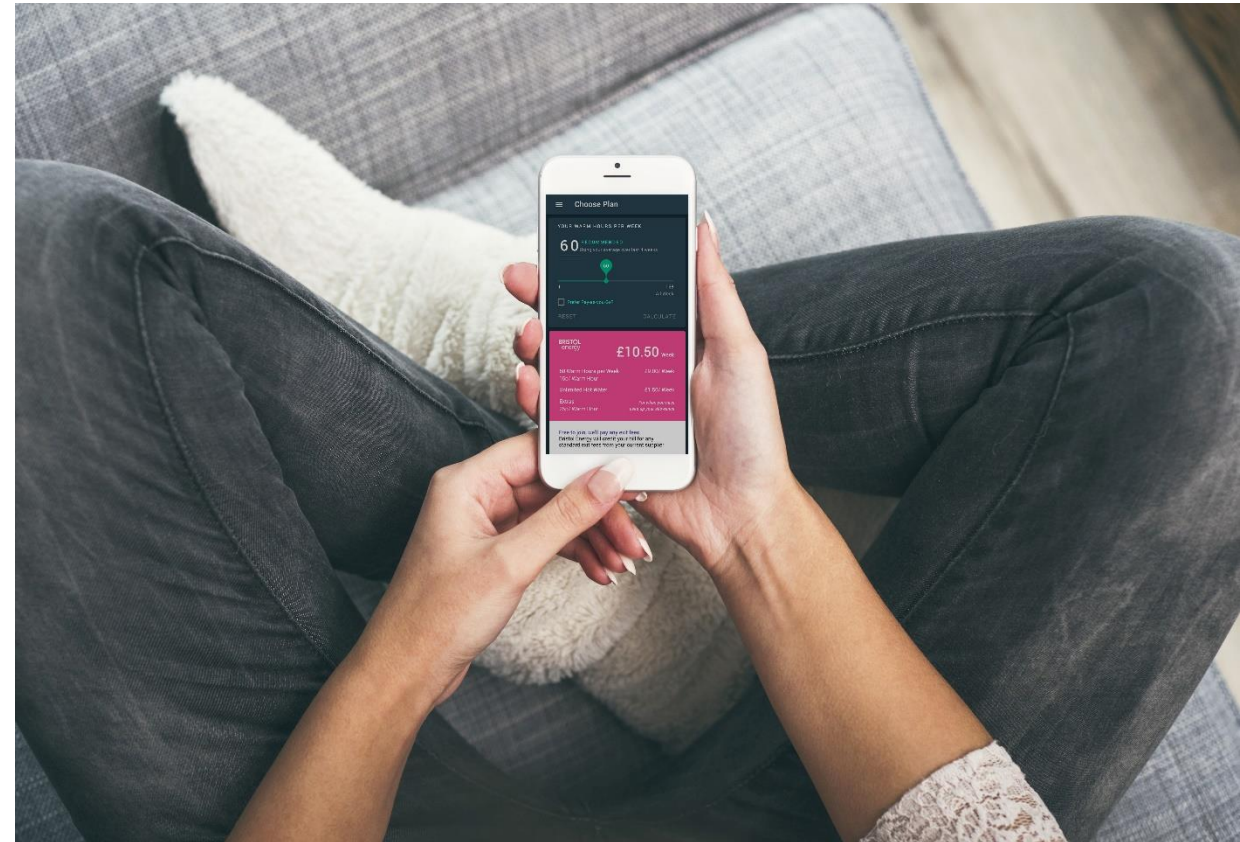

- Partnered with Eliq for development of data platform
- A Geo CAD providing a rich data set and the gateway to the connected home
- Creating smart propositions

Propositions Bristol Energy are developing...

Utilising smart meters, data and insight ...

- Local Energy Systems matching local generation and demand
- Heat and Power as a Service
- Personalised energy efficiency advice and safety alerts
- Assisted living / care capabilities for the concerned family member

So what do these topics have in common?

- We need to do more - think differently and challenge norms
- Put customers and communities at the heart
- The technology, data and enablers are in place... it's time for action ...

.. And Cities and Local Authorities can take the lead!
