Our Vision

A close-up, low-angle shot of a modern glass building facade. The glass panels are arranged in a grid pattern and reflect a clear blue sky and a white building with a curved facade. The reflections are sharp and clear, creating a sense of depth and architectural detail. The overall tone is bright and professional.

Our Vision

**Falkirk as a smarter, greener
and more inclusive place**

**What we will
deliver**

20 EV charging points

Battery storage

162 parking bays of solar panels

Our Vision

20 chargers growing to 40 within 5 years
third party charging providers
extended PV coverage
advanced battery storage system
bike and car hub

Constraints

An aerial photograph of a port terminal. The central area is dominated by a large, rectangular stack of multi-colored shipping containers (blue, red, green, orange). To the left, there are several large, spherical storage tanks and industrial piping. In the foreground, there are yellow gantry cranes and more stacks of containers. The background shows more industrial buildings and infrastructure. The overall scene is a busy port facility.

- **Planning**
- **Grid Access**
- **Infrastructure condition**
- **Will**
- **Money**
- **Staff Resource**
