**APSE Northern Region Forum** 

**Land Audit Management System (LAMS) App**

**Ian Jones**, APSE Associate

**Stuart Russo**, Technical Officer,  
Neighbourhoods and Customer Services,  
Bradford Metropolitan District Council

---

---

---

---

---

---

---

---

**Today's Theme** 

- ❖ The story behind LAMS
- ❖ The request to digitise the process
- ❖ The LAMS app – benefits and uses
- ❖ The user experience
- ❖ Short video

[www.apse.org.uk](http://www.apse.org.uk)

---

---

---

---

---

---

---

---

**LAMS is** 

- ❖ Land Audit Management System
- ❖ Developed in Scotland and rolled out on a UK wide basis
- ❖ Monitor grounds maintenance, also be applied to street cleansing for a total street scene quality score.
- ❖ Simple and effective performance measuring system
- ❖ 'what the public would see' rather than requiring a technical inspection.

[www.apse.org.uk](http://www.apse.org.uk)

---

---

---

---

---

---

---

---

# Ian Jones and Stuart Russo

**Land Audit Management System (LAMS)** 

- ❖ A consistent quality audit of measuring the quality of grounds maintenance
- ❖ Trigger for immediate intervention at local level
- ❖ Data source for comparative Performance Indicators at national level (real time & annual)
- ❖ Will contribute to annual performance awards
- ❖ Available free of charge to all PN members

---

---

---

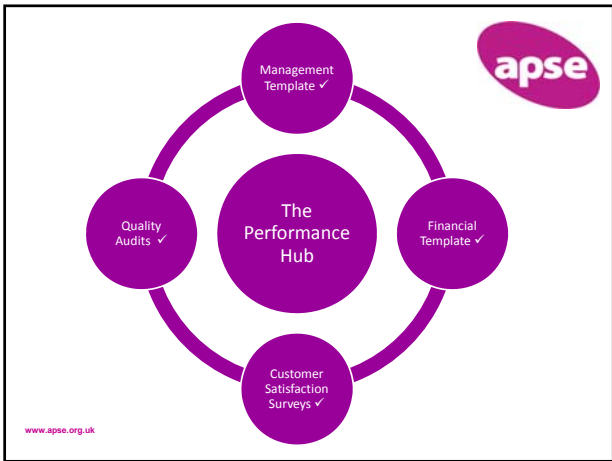

---

---

---

---

---

---

---

---

---

---

---

---

---

**Case Studies** 

*It's free, we do not have to purchase chargeable bolt on extras to the system to measure these extra inspection elements and run reports.*

*Therefore Authorities are not restricted by cost in order to obtain a truer analysis of their data.*

Oxford City Council

*Initially LAMS is useful to highlight - forgotten areas or areas with a history.*

*areas that could/should be managed differently.*

*Longer term benefits of LAMS - Adds evidence to anecdotal reports of maintenance issues for example quality of weed spraying.*

*Highlights positives of areas.*

*Reports to elected members.*

*Aberdeen City Council has been carrying out LAMS since 2012.*

[www.apse.org.uk](http://www.apse.org.uk)

---

---

---

---

---

---

---

---

**Case Studies**

**How Stafford Use LAMS**

- Monthly / Quarterly Reports
- Senior Operatives
- Screen in Mess Room
- Management Reports
- Key Performance Indicators

[www.apse.org.uk](http://www.apse.org.uk)

---

---

---

---

---

---

---

---

---

---

**Case Studies**

**Benefits of LAMS**

- Reduction in administration time to set inspections
- Reduction in time when submitting inspections
- Reduction in inspections
- Reduction in inspectors time due to a more cross department approach (Streets and Grounds)
- All the reduction in time produces more data than previous inspections
- System is user friendly so training new staff is more efficient benchmarking opportunities
- Inspections cover only land which are authorities responsibility

*LAMS have produced us a huge saving in time but with more data and information gained, we love LAMS here at Kettering Borough!!! And welcome new developments with a new app which will save us more time in admin and officer time, but with more results.*

[www.apse.org.uk](http://www.apse.org.uk)

---

---

---

---

---

---

---

---

---

---

**Approach to LAMS**

- ❖ Geographical Areas (M) - example
- ❖ 10 inspections per area (M)
- ❖ Random selection (M)
- ❖ 50/100 metre transect (M)
- ❖ Inspectors, Officers/Supervisors (Frontline Operatives)
- ❖ Possibly include volunteers
- ❖ N.B. 2 hours per Officer per 10 inspections

[www.apse.org.uk](http://www.apse.org.uk)

---

---

---

---

---

---

---

---

---

---

**Approach to Zones (implemented example)** 

Three Zone Types:

- ❖ 1 - High Amenity - *Civic Buildings, Bowling Greens*
- ❖ 2 - Standard Amenity - *Everything else!!!*
- ❖ 3 - Low Maintenance - *All features 7 cuts or less, Woodlands*

[www.apse.org.uk](http://www.apse.org.uk)

---

---

---

---

---

---

---

---

**Land Types** 

**Grading against land and feature types you are responsible for maintaining only!**

- MR - Main retail
- OR - Other retail
- TF - Transport facility
- HH - High obstruction housing
- MH - Medium obstruction housing
- LH - Low obstruction housing
- IR - Industrial, warehousing, retail
- MA - Main roads
- OH - Other highways
- RR - Rural roads
- RS - Recreation site
- PT - Public transport area
- WS - Waterside

[www.apse.org.uk](http://www.apse.org.uk)

---

---

---

---

---

---

---

---

**Grading & Scoring Mechanism** 

Grade	Description	Score
A	Excellent Standard	3 points
B	Acceptable Standard	2 points
C	Unacceptable Standard	1 point
D	Poor Standard	0 points

Desired minimum score of B and above (66.6% if quality index score is required)

---

---

---

---

---

---

---

# Ian Jones and Stuart Russo

## Cemeteries & Crematoria Module

- ❖ Previous templates were based around Grounds and Street cleansing.
- ❖ Increased interest from Cemeteries & Crematoria services led us to develop a specific template for the service.
- ❖ The template and guidance notes have now been designed.

[www.apse.org.uk](http://www.apse.org.uk)

---

---

---

---

---

---

---

---

## What we monitor

	Grounds maintenance	Street cleansing	Cemetery and crematorium services
Grounds maintenance standard	✓		✓
Surface weeds	✓	✓	✓
Litter	✓	✓	✓
Detritus		✓	
Fly tipping	✓	✓	✓
Dog fouling	✓	✓	✓
Bins over flowing	✓	✓	✓
Bin structure	✓	✓	✓
Bin cleanliness	✓	✓	✓
Vandalism/ damage			✓

---

---

---

---

---

---

## Land Audit Management System (LAMS)

### LAMS requirements and local options

Local	National
Frequency of inspections set locally	Bi-monthly data input timetable must be met
Number of inspections (transects) per period/annum	Minimum requirement of 10 inspections per geographical area per bi-monthly tranche
Intervention levels / times	Grading standards using Guidance Manual

---

---

---

---

---

---

---

---

# Ian Jones and Stuart Russo

**Street Cleansing Performance** 

Information now available on a suite of Performance Indicators;

- PI L02 Percentage of sites classed as acceptable (combined litter and detritus)
- PI L04 Percentage of sites classed as acceptable (litter)
- PI L05 Percentage of sites classed as grade A (fly tipping)
- PI L06 Percentage of sites classed as acceptable (dog fouling)
- PI L07 Percentage of sites where bins were over flowing
- PI L08 Percentage of sites classed as acceptable (bin structure)
- PI L09 Percentage of sites classed as acceptable (bin cleanliness)
- PI L... Percentage of sites classed as acceptable (detritus) to be added

[www.apse.org.uk](http://www.apse.org.uk)

---

---

---

---

---

---

---

---

---

---

**Grounds Maintenance Performance** 

Information now available on a suite of Performance Indicators;

- PI L02 Percentage of sites classed as acceptable (G/Maintenance)
- PI L03 Percentage of sites classed as acceptable (litter)
- PI L04 Percentage of sites classed as grade A (fly tipping)
- PI L05 Percentage of sites classed as acceptable (dog fouling)
- PI L06 Percentage of sites where bins were over flowing
- PI L07 Percentage of sites containing bins classed as acceptable (bin structure)
- PI L08 Percentage of sites containing bins classed as acceptable (bin cleanliness)
- PI L09 Percentage of sites classed as unacceptable (hard surface weeds)

---

---

---

---

---

---

---

---

---

# Ian Jones and Stuart Russo

## Developments agreed through the working group

### Volunteers Involvement;

- ❖ Member authority Telford and Wrekin are currently working on a procedure to include 100 + volunteers on LAMS quality audits (will utilise the LAMS App).
- ❖ Numerous member authorities have registered an interest in this approach
- ❖ Volunteer involvement enabled by the *'Simple to undertake & administer 'What the public would see' rather than requiring a technical inspection' approach.*

[www.apse.org.uk](http://www.apse.org.uk)

---

---

---

---

---

---

---

---

## Further developments

- ❖ LAMS/LEAMS, practitioners working on a collaboration of the two quality frameworks to provide both efficiency in completion of audits and greater value of the benchmarked data (UK wide)
- ❖ Cross boundary inspections; four member authorities engaging in this process
- ❖ An authority in the north west of England is looking to use the LAMS process as a quality audit on one of their outsourced Ground maintenance contracts'

[www.apse.org.uk](http://www.apse.org.uk)

---

---

---

---

---

---

---

---

## Street Cleansing - Measuring litter grades

- ❖ Defra have used APSE performance networks data in the dashboard for the key indicator on the percentage of sites at an acceptable standard for litter reporting.
- ❖ APSE is currently meeting with Defra to discuss the use of APSE's Land Audit Management System (LAMS) in future dashboards and also the Parks Action Group.

---

---

---

---

---

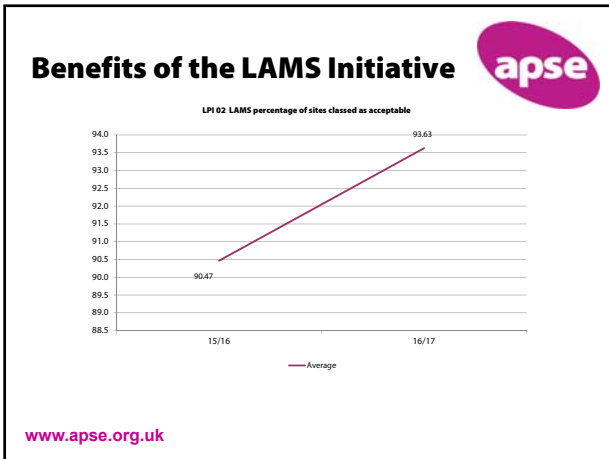

---

---

---

---

---

### The request to digitise the process

**“We need a mobile device”!!!**

www.apse.org.uk

---

---

---

---

---

---

---

---

---

---

### The New LAMS App

- ❖ Partnered with BBITS (Love Clean Streets) to develop an App for LA's to collect the data
- ❖ Training / testing / pilots during June, July and August
- ❖ Train the trainer
- ❖ Start date – was launched at annual seminar in September and is now available to all interested authorities.

---

# Ian Jones and Stuart Russo

**Feedback from the working group** 

- ❖ *"It's easy to use and a lot quicker than paper, you get the exact location, and pictures to back the grading up"* (Telford and Wrekin Council).
- ❖ *"Having done about 100+ surveys it's a thumbs up from me"* (Bradford Council)
- ❖ *"Very easy to use with the app being very responsive"* (Stafford Borough Council)

www.apse.org.uk

---

---

---

---

---

---

---

---

**Feedback from the working group** 

- ❖ *"Didn't witness any lag with the app and inspections seemed to upload without any hitch"* (Stafford Borough Council)
- ❖ *"The app has been as described; very simple and easy to use"* (Wigan Borough Council).

**LAMS Surveying With The App:  
The User Experience**

**Stuart Russo**  
Senior Technical Officer

Neighbourhood Services

---

---

---

---

---

---

---

---

# Ian Jones and Stuart Russo

## Accessibility

- ✓ Easily downloaded
  - Just look for "Surveys BBits"
- ✓ Any Android or Apple device
- ✓ Not limited to works-issued device
- ✓ Umbrella-license allows use on multiple devices

---

---

---

---

---

---

---

---

## Usability

- ✓ Intuitive flow through process - fast
- ✓ No typing required (option to at end)
- ✓ No signal problems with GPS on site
  - District is 63% rural / 37% urban
  - 'Holding tank' *if signal drops or survey not completed by user*
- ✓ Does not clutter phone with pictures

---

---

---

---

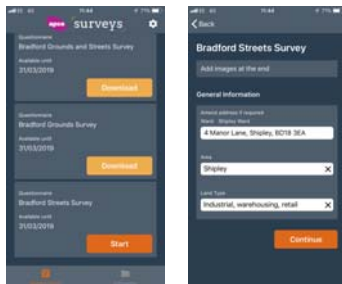

---

---

---

---

## Surveying

## Exporting Data

The screenshot shows a software interface with the following elements:

- A dropdown menu for data format, currently set to 'Excel'.
- Input fields for 'Start date' (01/04/2018) and 'End date' (19/10/2018).
- A section titled 'Description' with four categories, each having an 'Actions' dropdown menu:
  - Responses Approved
  - Responses Approved - Combined
  - Responses Not Approved
  - Responses Not Approved - Combined
- A large table with multiple columns containing data for each survey point.
- The 'apse' logo in the top right corner.

---

---

---

---

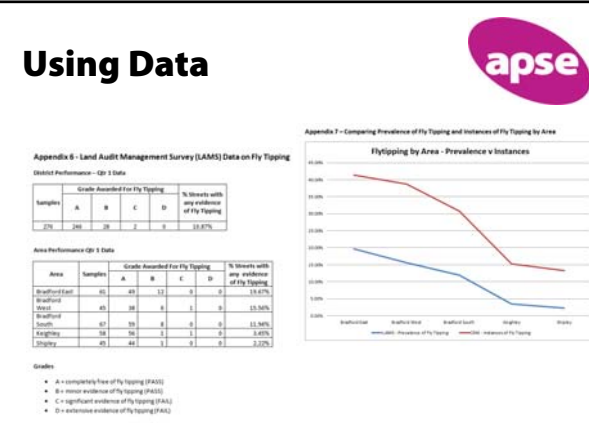

---

---

---

---

## Using Data

The screenshot displays data analysis components:

**Appendix 6 - Land Audit Management Survey (LAMS) Data on Fly Tipping**

Samples	Grade Awarded for Fly Tipping				% Streets with any evidence of Fly Tipping
	A	B	C	D	
220	240	28	2	0	13.67%

**Area Performance (Q1 1 Data)**

Area	Samples	A	B	C	D	% Streets with any evidence of Fly Tipping
Bradford East	65	43	13	0	0	18.47%
Bradford West	45	34	8	1	0	15.56%
Bradford South	67	53	8	0	0	11.94%
Harrogate	58	56	1	1	0	1.69%
Elgthwa	40	40	1	0	0	2.50%

**Appendix 7 - Comparing Prevalence of Fly Tipping and Instances of Fly Tipping by Area**

**Flytipping by Area - Prevalence v Instances**

The graph plots 'Prevalence of Fly Tipping' on the x-axis and 'Instances of Fly Tipping' on the y-axis. Two lines are shown: a red line for prevalence and a blue line for instances. Both lines show a downward trend from left to right across the areas.

- Grades:**
  - A = completely free of fly tipping (FAAS)
  - B = minimal evidence of fly tipping (FMAS)
  - C = significant evidence of fly tipping (FSAS)
  - D = extensive evidence of fly tipping (FEAS)

---

---

---

---

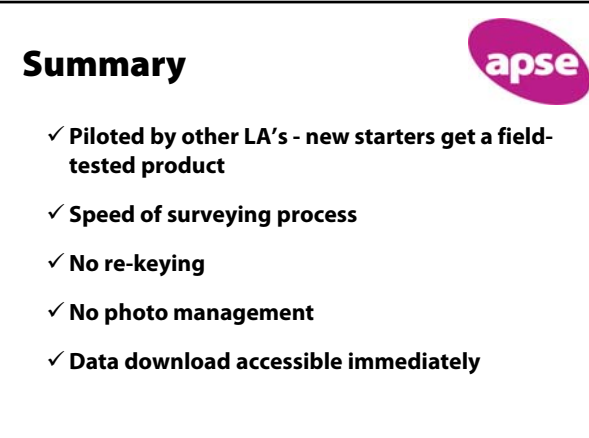

---

---

---

---

## Summary

- ✓ **Piloted by other LA's - new starters get a field-tested product**
- ✓ **Speed of surveying process**
- ✓ **No re-keying**
- ✓ **No photo management**
- ✓ **Data download accessible immediately**
