APSE Northern Forum 2022

Jo Oliver, Programme Delivery Service Manager, Rochdale Council

What information is lacking for local authorities to help understand their role in delivering the strategy?

@apseevents

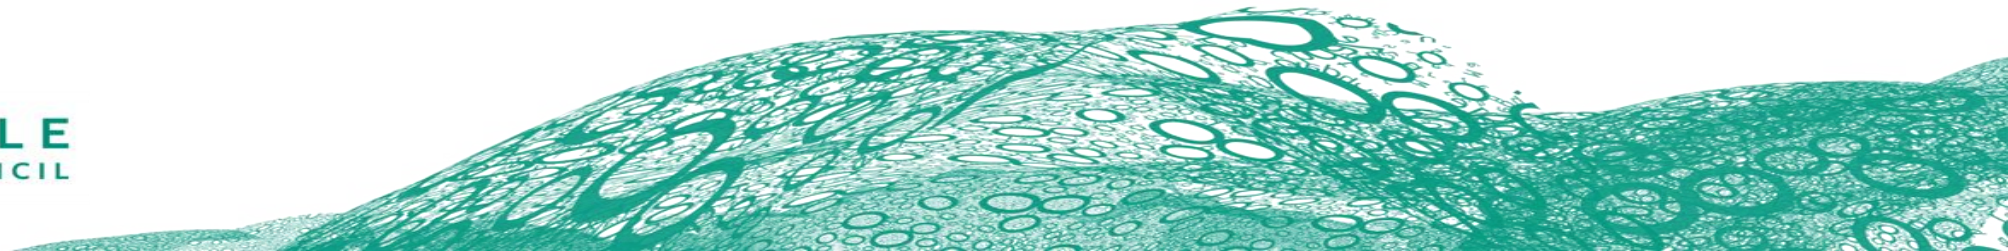

What Information is Lacking to Help LAs Understand Their Role in Delivering the Strategy?

Jo Oliver

Consistency of Recycling Collections and DRS Consultations

- Still awaiting responses to the consultations.
- Will weekly comingled food and garden waste be acceptable?
- Will LAs be able to continue to charge for separate garden waste collections?
- Frequency and weekly volume of collections? Six or seven separate collection containers or some can be combined?
- Details of cost recovery mechanisms – New Burdens fund and EPR
- Impact of DRS on amount and type of waste we collect.

Extended Producer Responsibility DEFRA Response

- Published end of March
- Business waste collections not included, so a 2 stage implementation. So are LA trade waste collections excluded?
- How will residual waste be sampled for composition analysis and at what frequency?
- Net costs to be paid to LAs from April 24 based on 2023 data
- If your LA exceeds performance but incurs additional costs will it receive additional payment?
- What will be the level of deduction for poor performance?
