Practical Cycle Awareness Training Advisory Panel

In comparison to other risk behaviours, far fewer drivers consider driving over the speed limit to be a very serious safety risk

How serious is in terms of the risks to the safety of drivers, their passengers and/or other road users?

Base: All who hold a full driving licence for a car and drive nowadays at each wave

Q5: How serious do you think each of these are in terms of the risks to the safety of drivers, their passengers and for other road users?

Percentage change in casualty numbers, 2004-08 to 2014

	Fatal	Serious	Slight	All severities
Pedestrian Casualties	13%	35%	41%	39%
Cyclist Casualties	13%	16%	18%	17%
All Casualties	31%	35%	34%	34%

Source: Key Reported Road Casualties Scotland, Transport Scotland

Note: data for 2014 is provisional
