The team

Benefits

- We deliver effective, efficient and sustainable outcomes for local people
- We are client focussed: we understand the operating environment and needs of local authorities
- We have an excellent track record in delivery, cost and risk management
- We are nationally recognised – a multi award winning team
- We add value – we build project and programme management capacity in the staff teams we work with

Summary

- Commercialisation
- Balance of resources
- Appraise all projects prior to undertaking them
- Now working for and with external partners
- Don't give up on major infrastructure project teams
– need to keep the intelligent client function
- We are here to help!
