Building cleaning

Thursday 9 January 2020

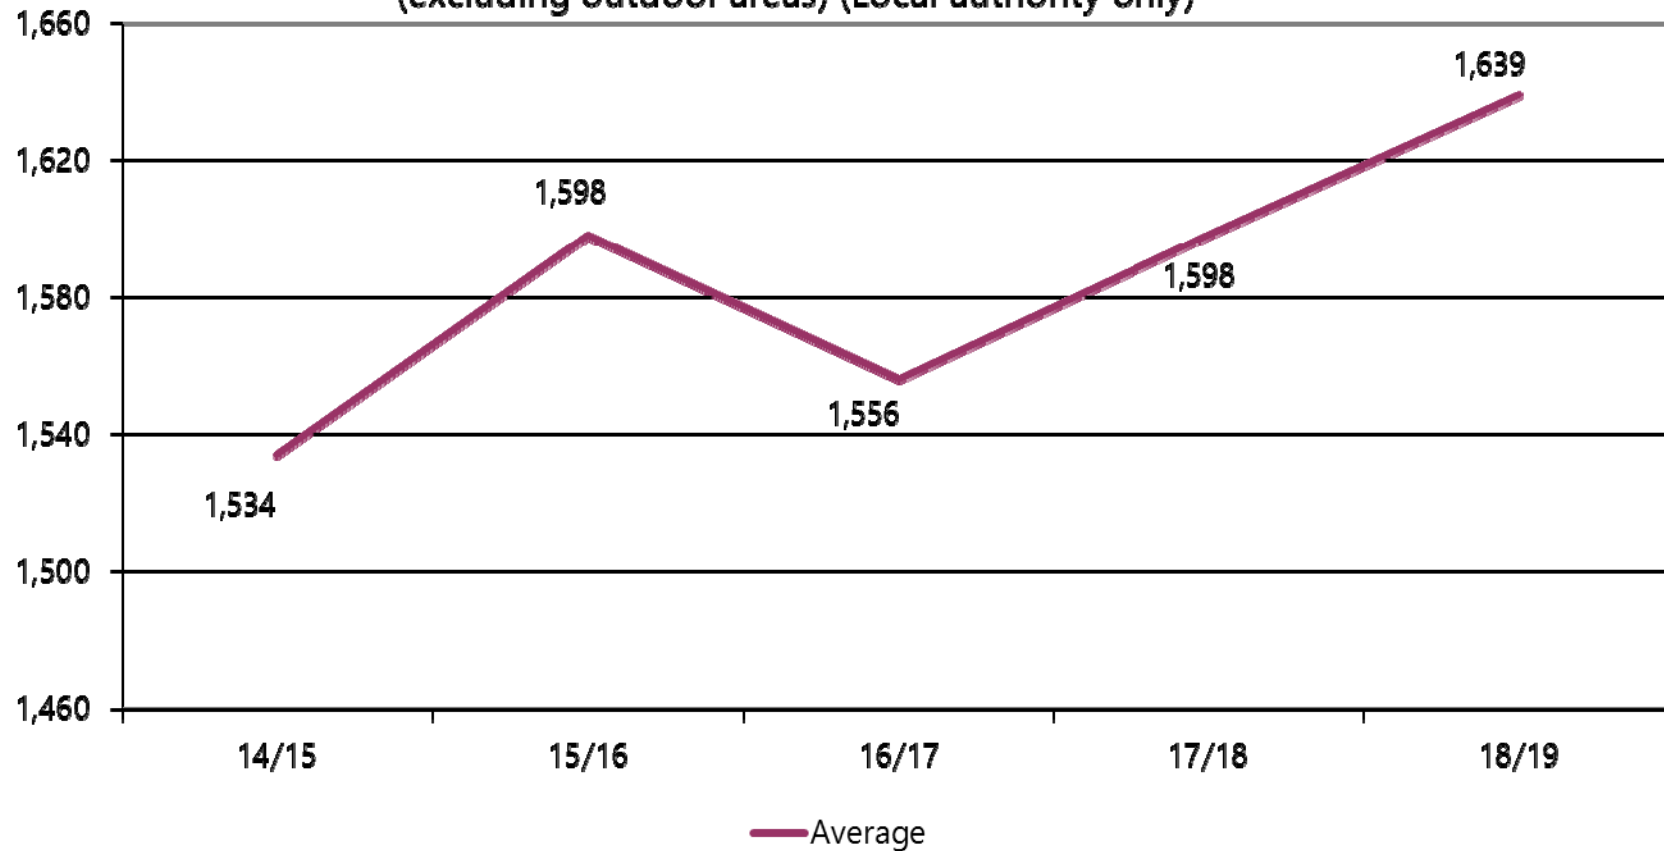

Debbie Johns, Head of Performance Networks, APSE

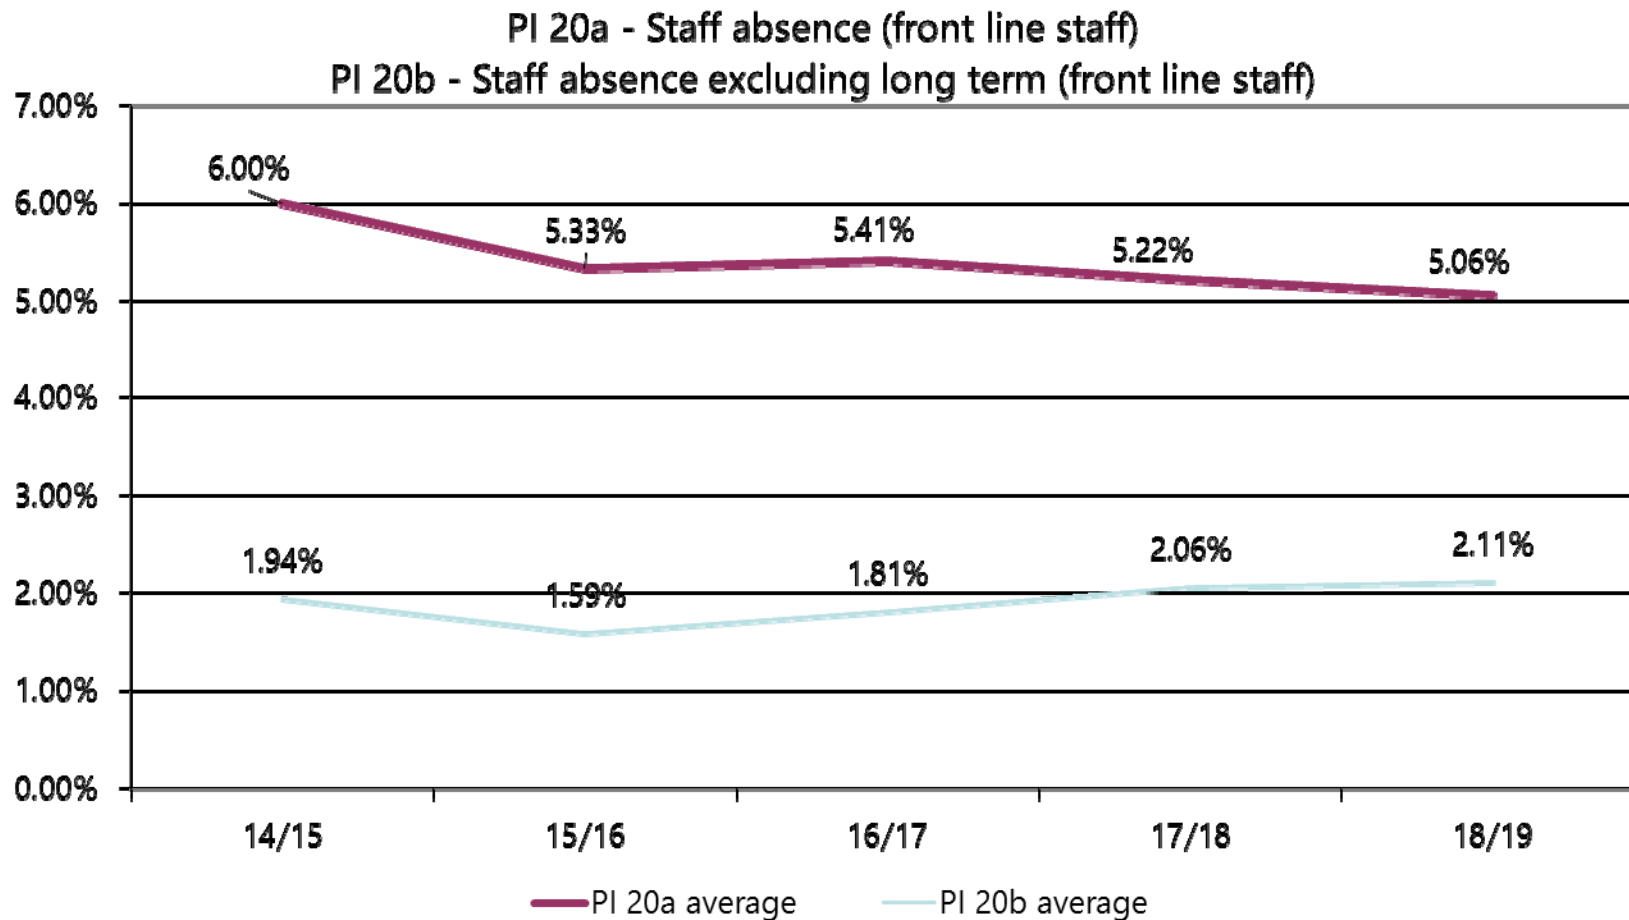

www.apse.org.uk

Trend analysis

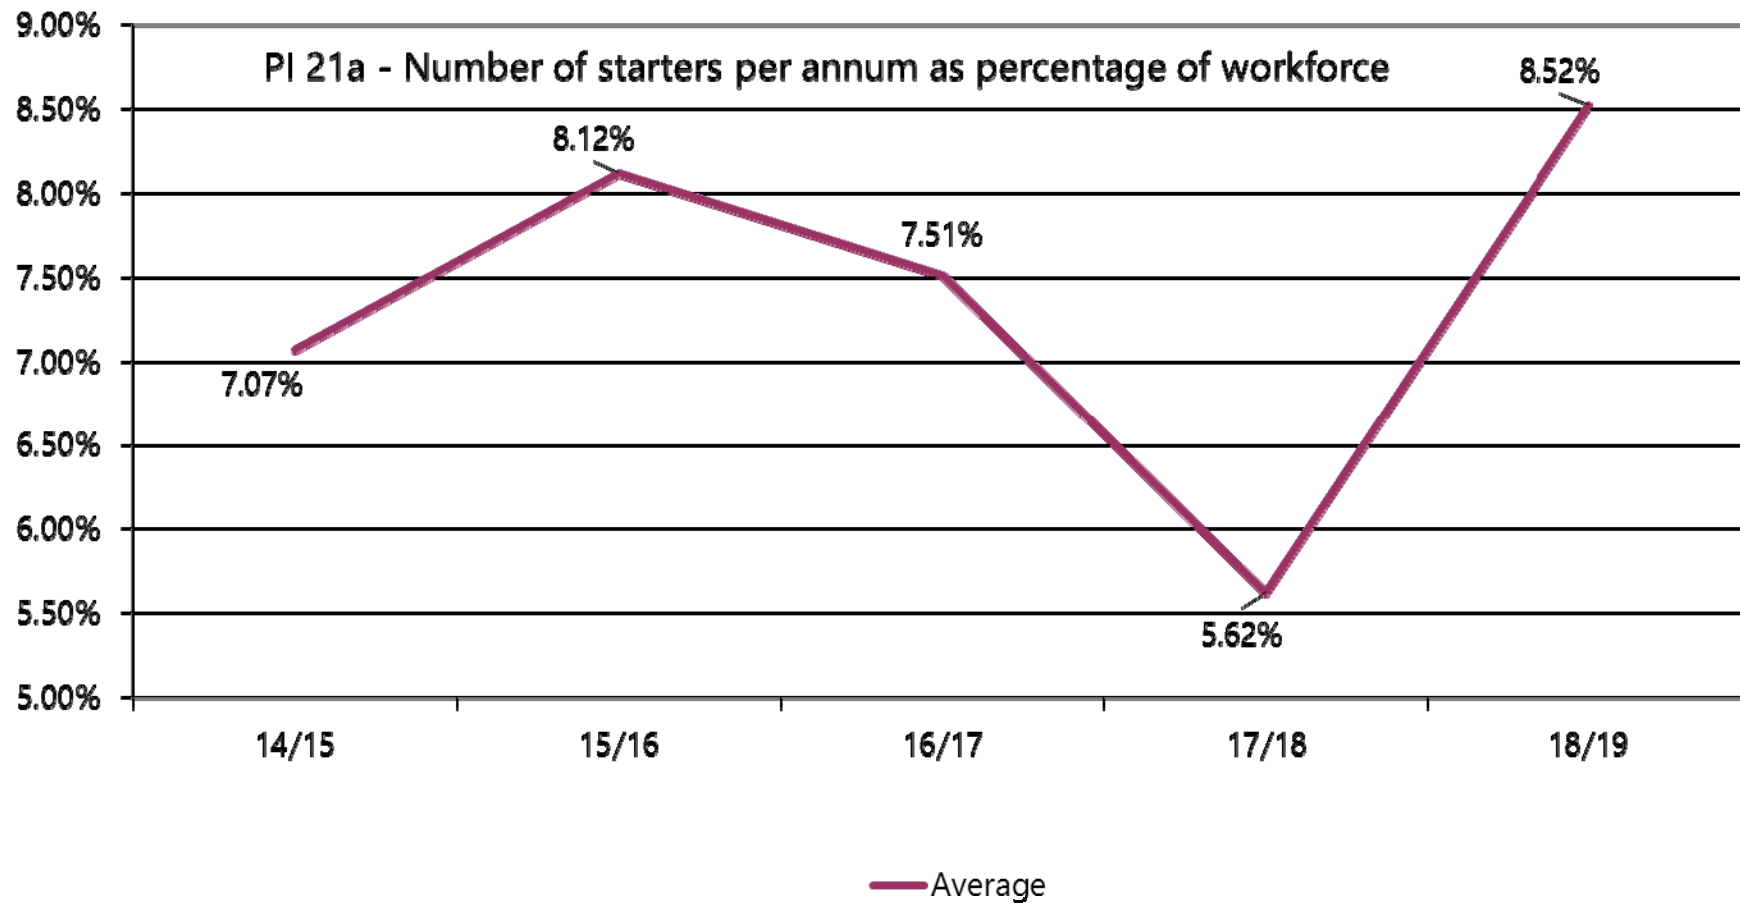

PI 16a - Total square metres cleaned per FTE employee
(excluding outdoor areas) (Local authority only)

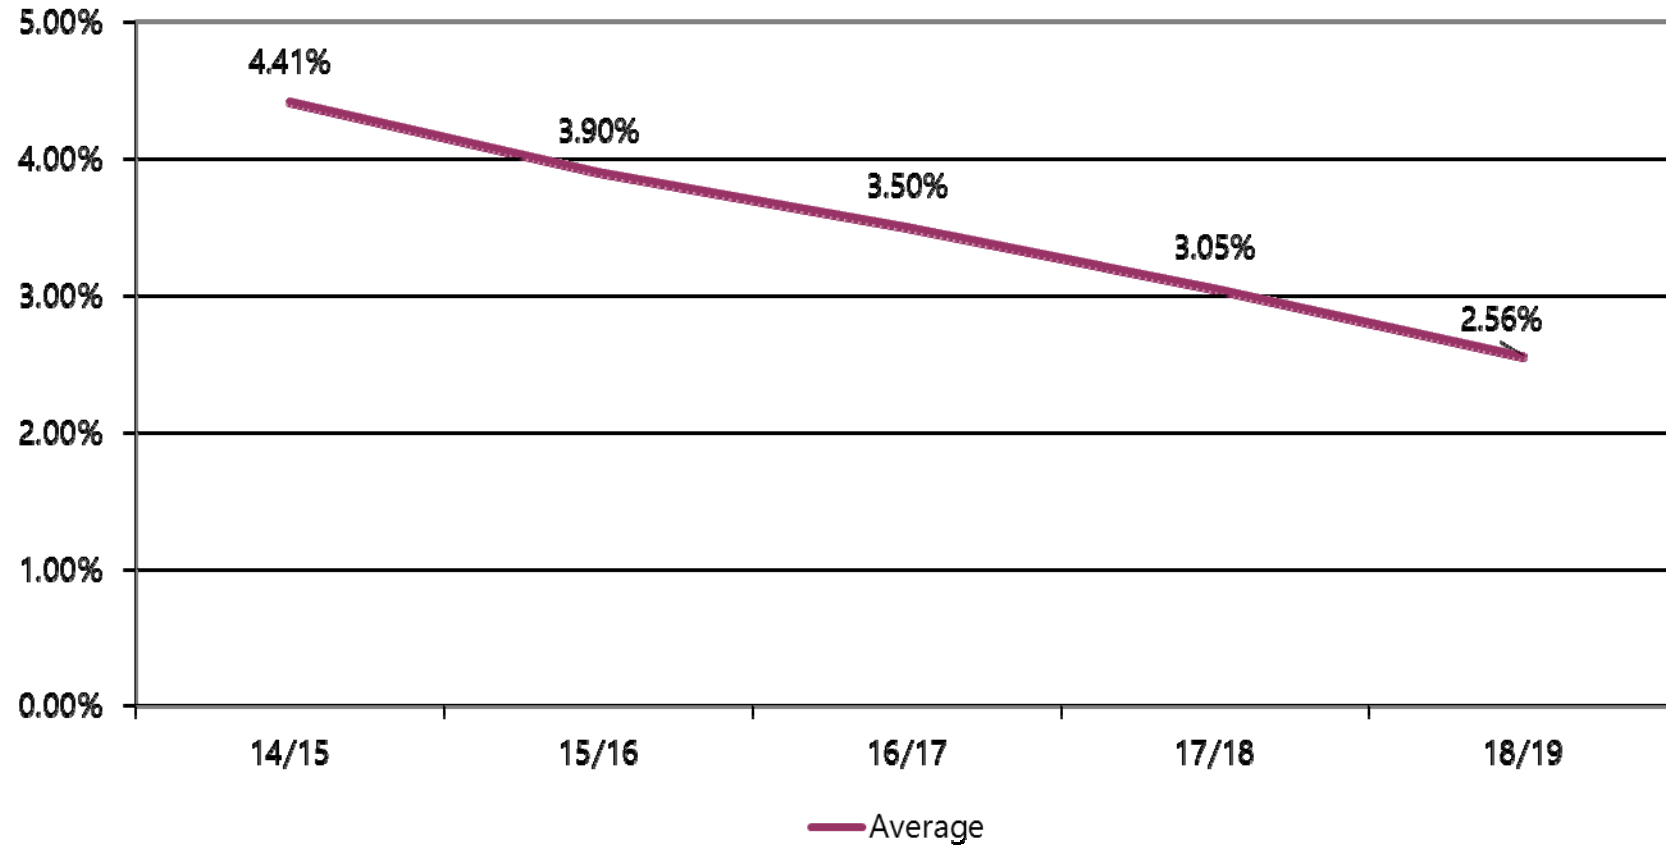

PI 25a - Leavers as percentage of total operational staff
PI 25b - Leavers (employed for at least 12 weeks) as a percentage of total operational staff

PI 08a - Other costs as a percentage of total cost (All work)

Working group May 2019 - developments

- Simplification of the key drivers
- Possibility of creating a 'Trading organisation' report
- New data collection on commercial/external/private/cross boundary/non building cleaning work
- Number of buildings and square meters cleaned data update
- Bespoke country-specific reports

New business/commercial indicators

- Operational recovery ratio excluding CEC (commercial work only): **109.65%**
- Income generated per FTE (commercial work only): **£28,858**
- Commercial work as a percentage of all work (square metres cleaned): **8.85%**
- Commercial work as a percentage of all work (turnover): **10.66%**

Other developments

- Measuring customer satisfaction
- Web portal
- Audits and inspections

Draft customer satisfaction survey

2. Please tell us how you think the building cleaning operation is performing with regards to each of the following aspects.

	Not applicable	Excellent	Good	Average	Poor	Very Poor
Good understanding of customer requirements	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Service provider communication	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Responsiveness of the cleaning service provider	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Satisfactory resolution of problems	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Friendly attitude of cleaning staff	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Reliability/punctuality of cleaning staff	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Flexibility of cleaning staff	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

3. Please tell us how you think the building cleaning operation is performing with regards to each of the following aspects.

	Don't know	Excellent	Good	Average	Poor	Very Poor
Standard of cleanliness	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

4. Please tell us how you think the building cleaning operation is performing with regards to each of the following aspects.

	Not applicable	Excellent	Good	Average	Poor	Very Poor
Clear statement of service provided	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Safe / tidy storage of cleaning equipment and materials	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Health and safety practices	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

5. Please tell us how you think the building cleaning operation is performing with regards to each of the following aspects.

	Don't know	Excellent	Good	Average	Poor	Very Poor
Invoicing process for cleaning services	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

6. Please add any comments that you would like passed on to the Building Cleaning service.

Already registered?

N

Complete the form with contact details and which service areas you need to access.

APSE will then email the service contact for authorisation to add you as a report or data contact.

Once authorisation is received, your account will be set up.

You will receive an email from webportal@apse.org.uk with instructions to set your account up

Y

If you have been registered but have not accessed the portal before, you may need to reset your password.

Login to the portal pn.apse.org.uk and click on forgot your password. You will immediately be sent a reset link. If this does not arrive check your firewall settings as it may have been sent to your junk email folder.

Hurray! You can log on to the portal and access data templates and view your reports*

*if you have the correct level of access.

Report contact – can access the data templates AND view the reports

Data contact – can only access the data templates, they cannot view the reports

I don't know if I'm registered?

That's fine! Just check with the APSE staff at the registration desk today and they can tell you. Alternatively, you can email webportal@apse.org.uk and we can tell you.

How to... access the performance networks web portal

From January 1 2020 the old PN web portal will no longer be accessible so you need to make sure you are registered on the brand new portal

LAMS

- ❖ Land Audit Management System
- ❖ Developed in Scotland and rolled out on a UK wide basis
- ❖ Monitor grounds maintenance, street cleansing and cemetery land.
- ❖ Simple and effective performance measuring system
- ❖ App has been developed and is being used by LA staff and volunteers

APSE Land Audit Management System (LAMS)

A quality inspection tool to benchmark your grounds maintenance, cemetery land and wider street scene service

Building cleaning and LAMS

How this could be applied to inspecting building cleaning.

- The App currently allows inspectors within councils to score pieces of land for things like the quality of grass cutting, quality of flower bed maintenance, presence of litter etc.

Building Cleaning

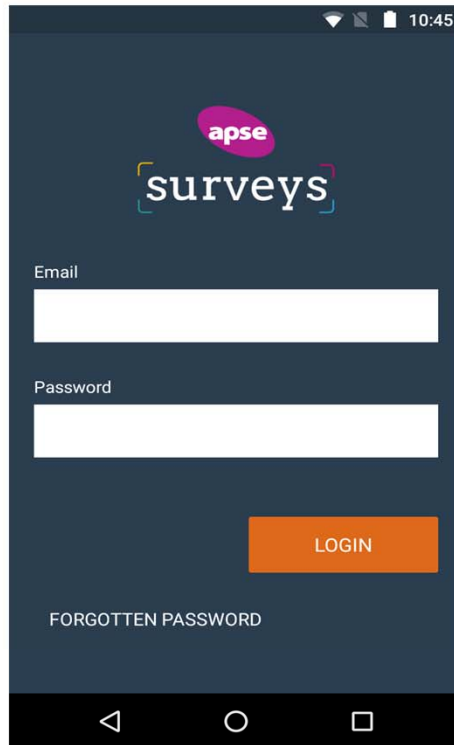

- Can be expanded so that councils can carry out Building Cleaning inspections/audits in a separate module on the App.
- This was discussed at the Building Cleaning working group in May where we agreed to write to member councils to gauge the level of interest in this.

Building Cleaning

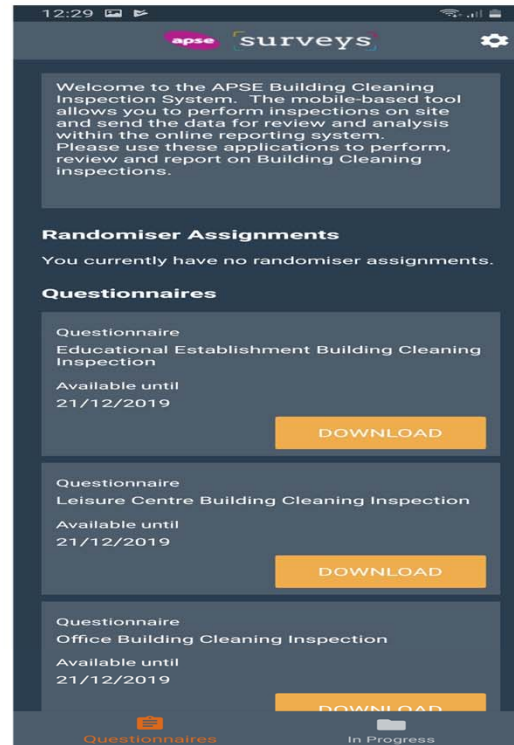

We have attached some screenshots so that you can see how the App would work. It includes 4 different surveys for the following types of buildings:

- Educational establishments
- Leisure centres
- Offices
- Public conveniences

USING THE APSE BUILDING CLEANING SURVEYS IN THE APP

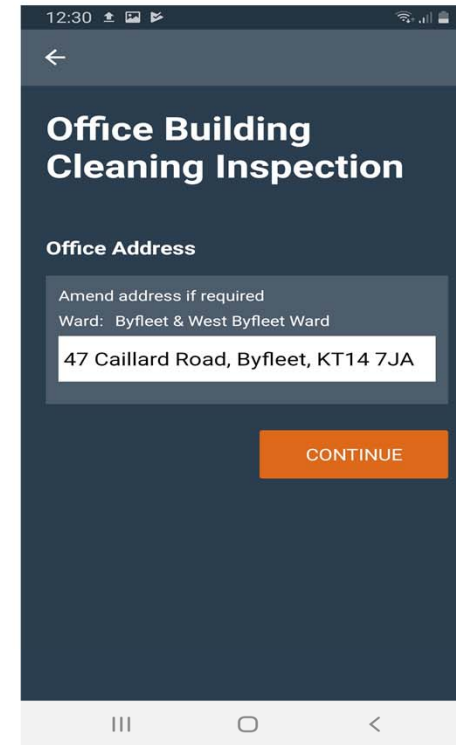

On opening the app, login with the email and password for the Building Cleaning Surveys system.

First page shows the available surveys.

Select the Office Building Cleaning Inspection

Address is populated but can be amended.

Select the section of the Office Building you wish to Inspect first.

Completed sections available to edit, upto 10 can be added for each inspection area.

Once all done tap Complete.

Enter overall comments if needed and send now or later.

Building Cleaning

- The questions, grades and descriptions would be discussed and decided by a working group if there is sufficient interest in developing this. 15 councils so far have registered their interest.
- This would only be available to members of APSE performance networks and would cost £600 per year per authority.

Building Cleaning

- There is no maximum on the amount of users who can be registered for the App and the price is per authority as opposed to per user.
- Free training sessions would be held at locations around the UK to train you up on how to use this so that this training can be cascaded to others in your local authority on a 'train the trainer' basis.

Building Cleaning

- Compared to paper-based systems, the App will reduce the duration of inspections.
- The App automatically identifies location through GIS and requires photographic evidence to support the grading for validation purposes.
- It is user friendly so that you can train your new staff efficiently and it reduces the time it takes to submit inspections as this is through a click of a button.

Building Cleaning

- Providing the demand is proven, the results from participating authorities can be benchmarked throughout the year, so that you can compare grading / cleanliness levels not only by authority, but by building and feature type thus becoming an invaluable management tool producing meaningful data.
- This can be used to prove value for money and to promote how effective your service is.
- Not only would this data be available 'live' via the cloud but also feed into the performance indicator reports and can contribute to the awards criteria.
