- Developing resources
- What has been achieved

Laure Renault, Pathways to Work Projects and Contracts Manager, Barnsley Metropolitan Council

APSE Update

Vickie Hacking, Principal Advisor, APSE

11:30 Seminar close

About the seminar

Local authorities play a key role in building community resilience by strengthening a community's ability to prepare for, respond to, and recover from emergencies. This is achieved by developing social connections, sharing information, and planning collaboratively. Key strategies need to be adopted including building trust, making information accessible, encouraging participation in local activities, and using local knowledge and resources to plan and act.

This APSE Northern Event is **free** to attend for APSE Northern region members and brings together a range of expert speakers who will demonstrate how community resilience can be measured, and the presentations will showcase projects and approaches that councils are adopting to build resilient in the community.
