

APSE Annual Seminar Exhibition and Service Awards 2014

The APSE Energy Project

10 - 11 September 2014

Richard Auton, Director
Energy, Infrastructure and Government
Walker Morris LLP

- **Opportunity** for local authorities in energy generation and energy efficiency
- **Availability** of legal powers to deliver local energy solutions
- **Bankability** with finance available for quality schemes
- **Efficiency** through collaboration with APSE Energy

The Opportunity

- Heat Networks
- Energy from Waste
- Anaerobic Digester
- Solar
- Wind
- CHP
- Heat Pumps
- Electricity
- Steam/heat
- Cooling
- Gas
- Biomass
- Waste

The Opportunity

- Green Deal
- ECO
- Building Management/efficiency
- Energy purchasing

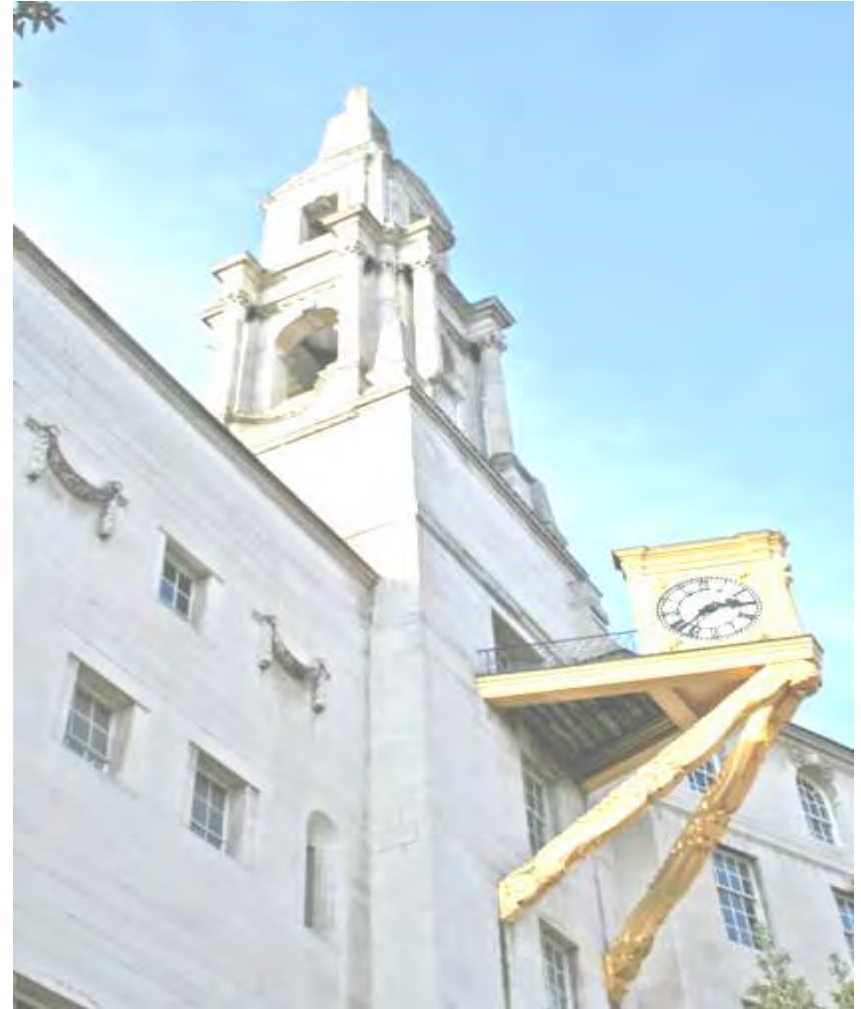

Availability of legal powers

Delivering local energy & energy efficiency

Legal Powers

- Do Authorities have the legal powers to develop projects, produce, sell/buy energy?
- What are the key regulatory issues?
- Procurement issues

Bankability

- Investing in municipal energy projects – Prudential Borrowing & Loan Finance
- Using the public sector energy requirement to attract Developer interest or 3rd party finance
- Facilitating site assembly and approvals to shorten delivery timescales

Innovation in Municipal Energy
