

Consultancy, Investigation & Training

Rob McCormack

CIH Asset Management & Maintenance

Conference

Energy Efficiency Showcase

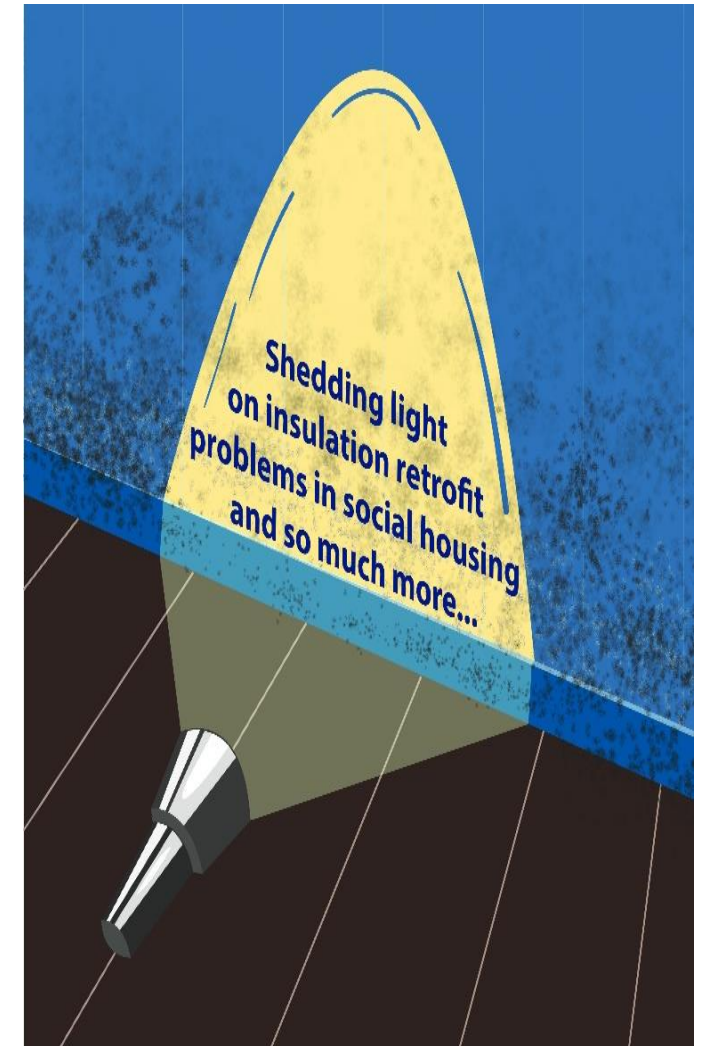

27th Sep 2017

Today's agenda

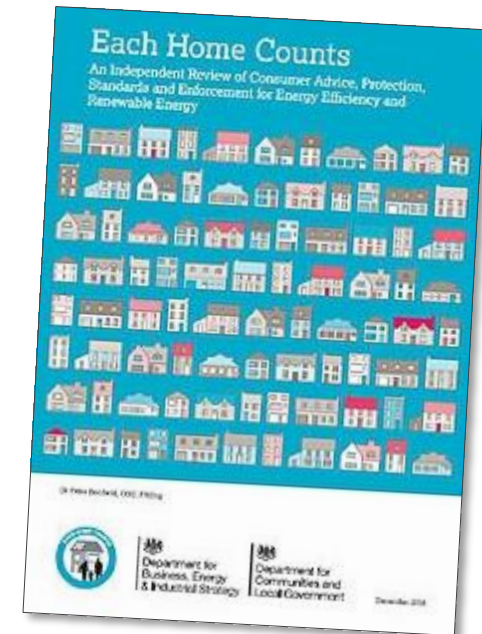

We will explore the ways BBA CIT is supporting many local authorities, housing associations and private businesses throughout the UK to tackle housing issues by:

- Conducting **independent property investigations** to assess the causes of damp, condensation and other technical defects
- **Identifying resolutions** for the consequences of inappropriate or improperly installed insulation retrofit products
- **Safeguarding** future installations through independent property suitability assessments
- Delivering **expert led training** on property assessment and technical product knowledge to local authority, housing association and private business employees

CIT is part of the BBA Group

- Established in 1966
- The BBA is the UK's largest and leading certification body for the assessment of construction products
- Assess over 300 different types of products
- One third of the BBA's business is focussed on the insulation and retrofit sector
- BBA CIT are working closely with the Each Home Counts team

Does your retrofit fit?

- Damp
- Condensation
- Cracked walls
- Incorrect installations
- Poor workmanship
- Abandoned installation projects
- Property suitability
- Technical specifications
- Litigation
- Unsuitable guarantees

Are you concerned about these or any other related issues?

Our clients
