Drumpellier Country Park

Strathclyde Country Park

What's the Problem?

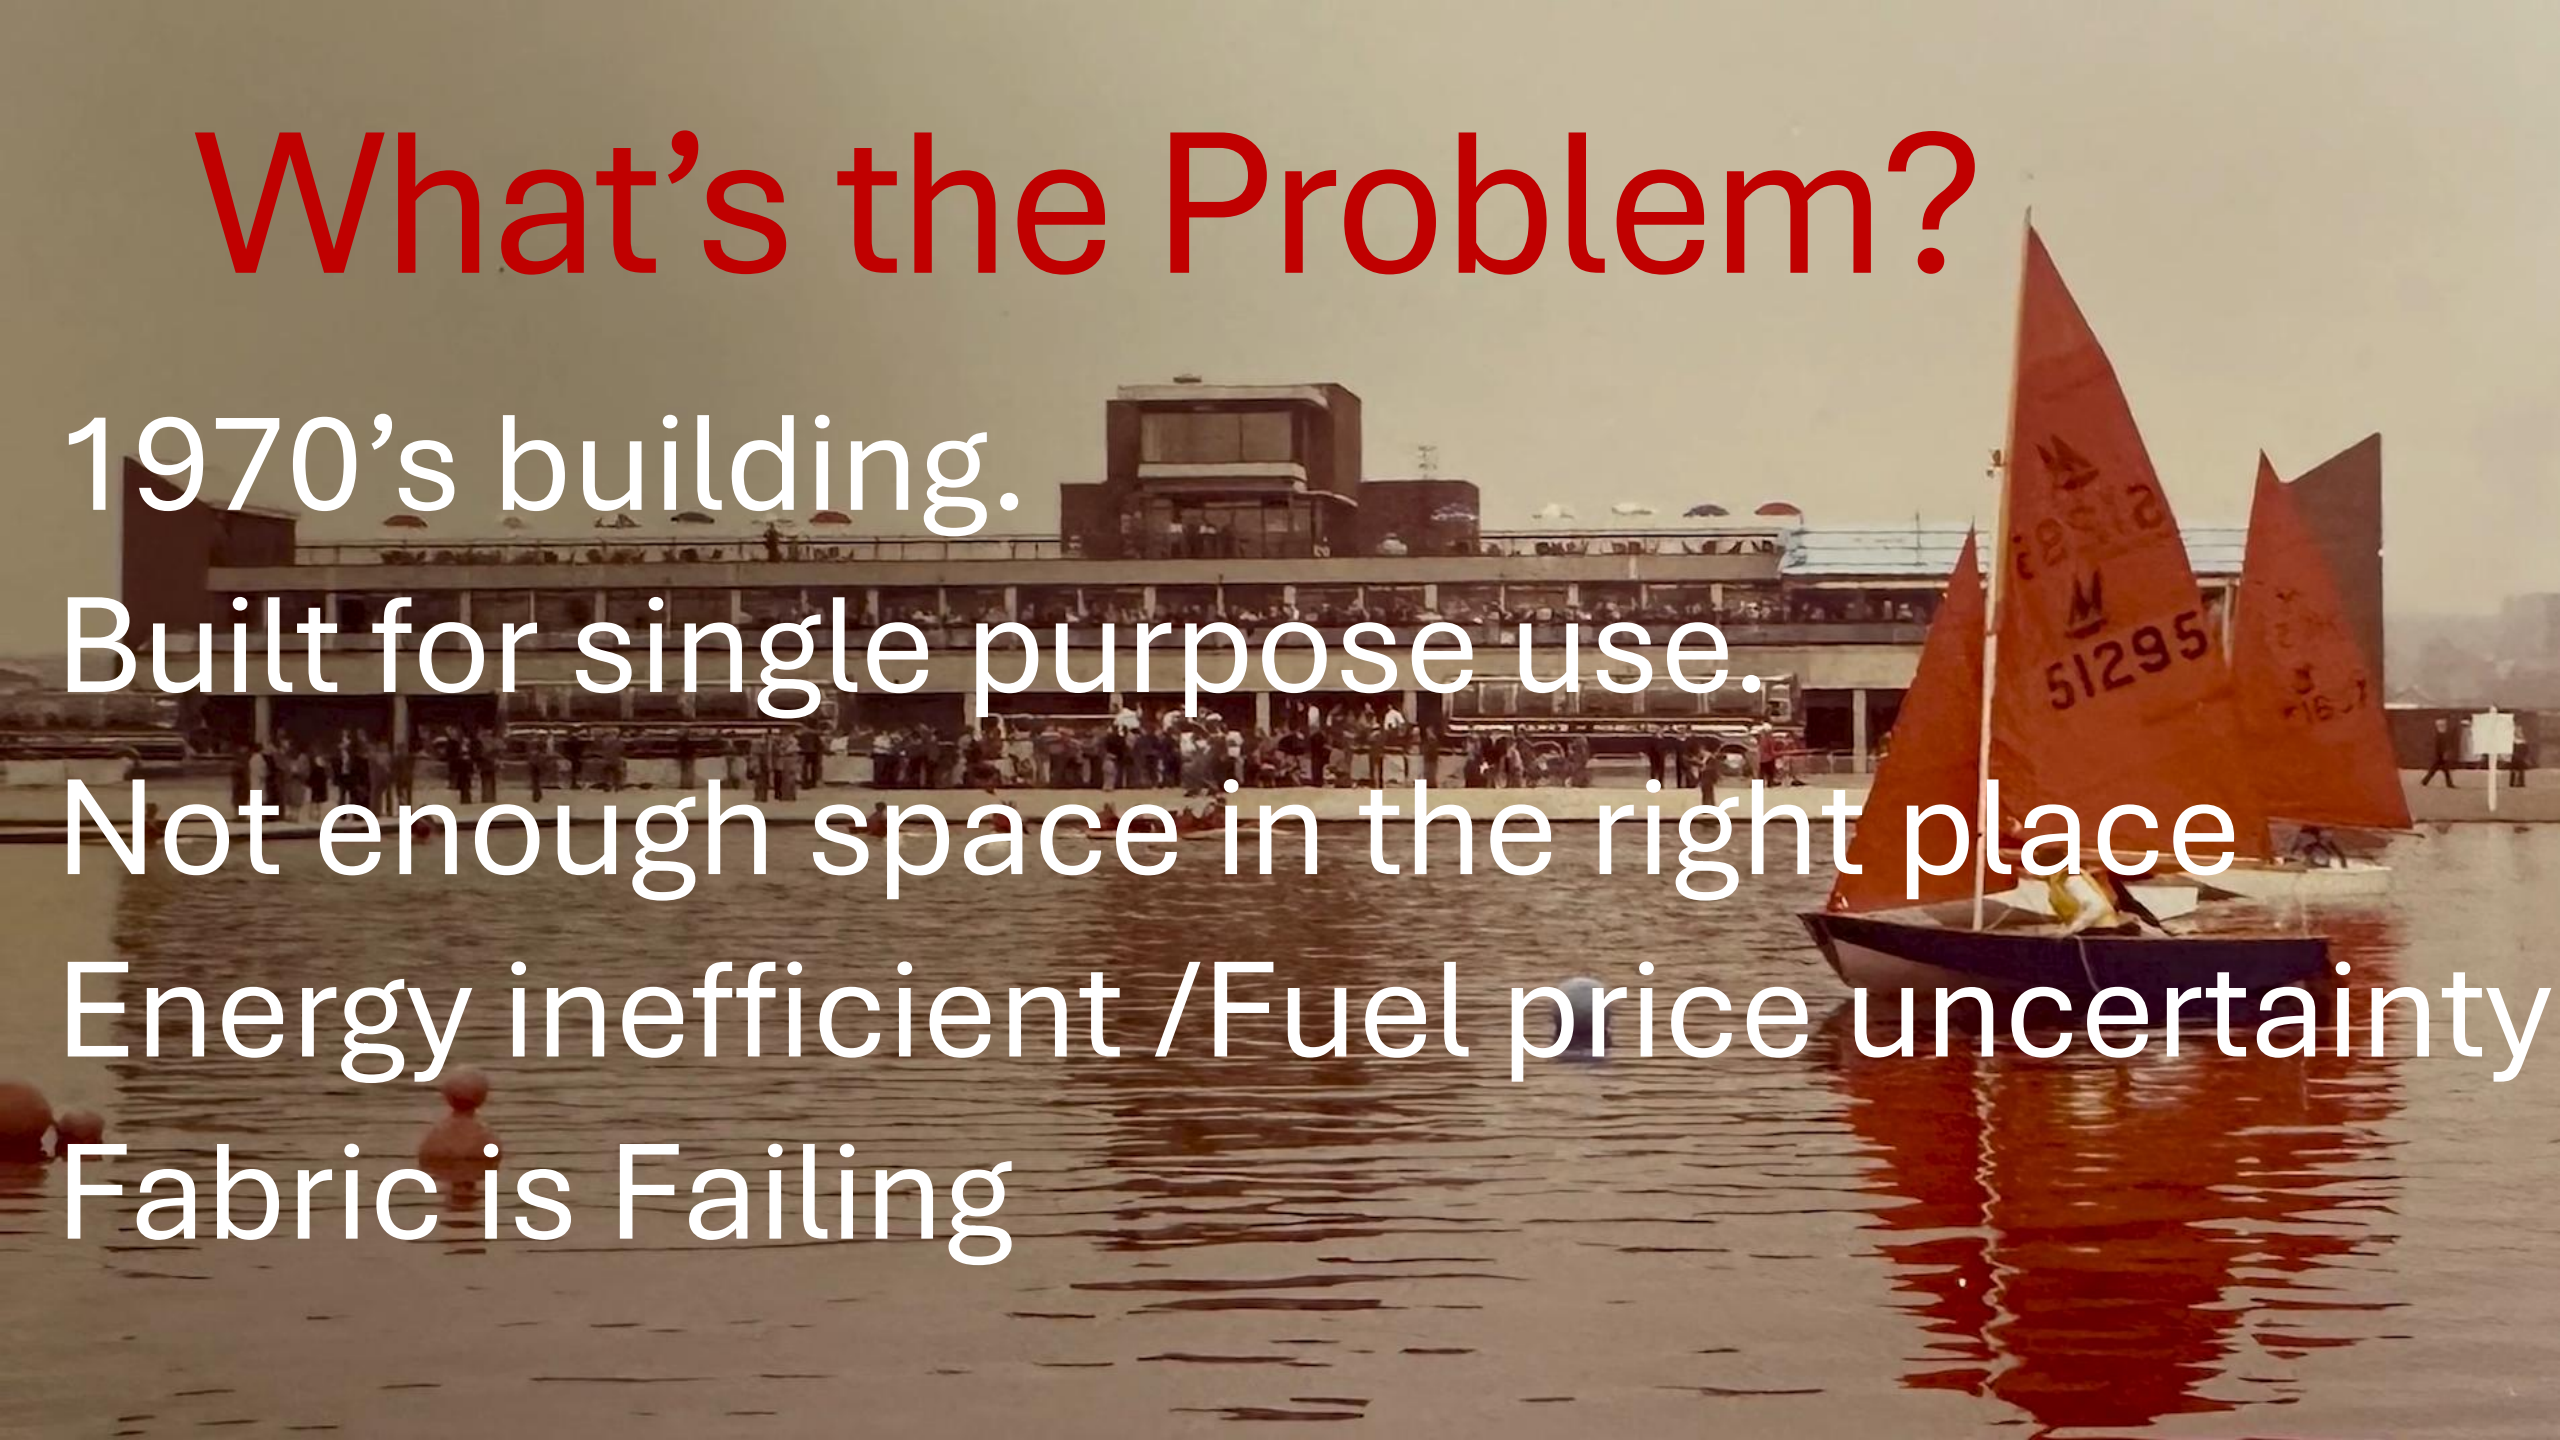

1970's building.

Built for single purpose use.

Not enough space in the right place

Energy inefficient / Fuel price uncertainty

Fabric is Failing

The Ask...

Lose less energy
Cost less to run long term
Flexible spaces for health and wellbeing
Attract more visitors, staying longer
Increase income

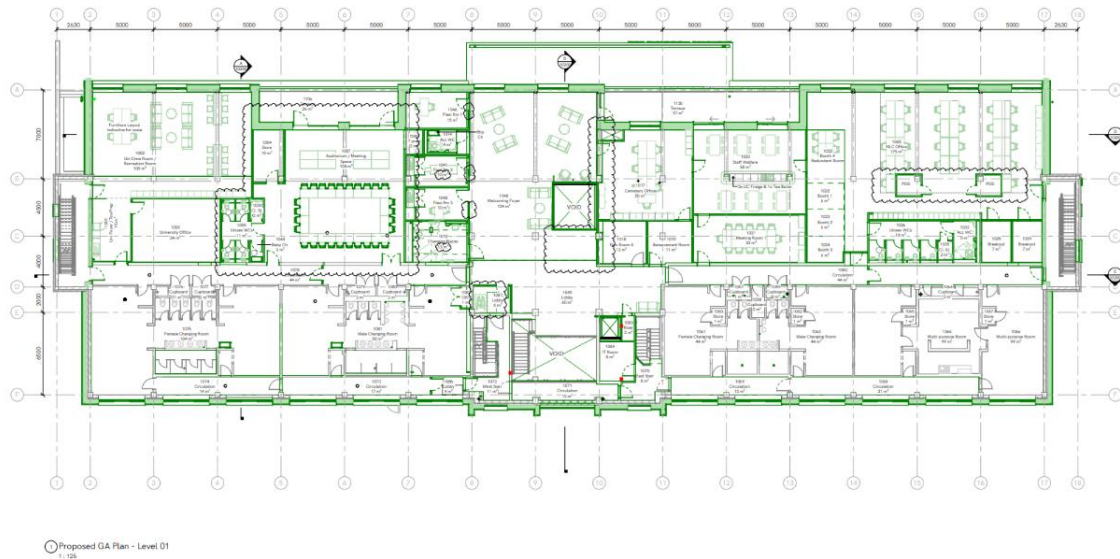

The Solution...

Extend onto open terrace.

Extend onto open terrace.

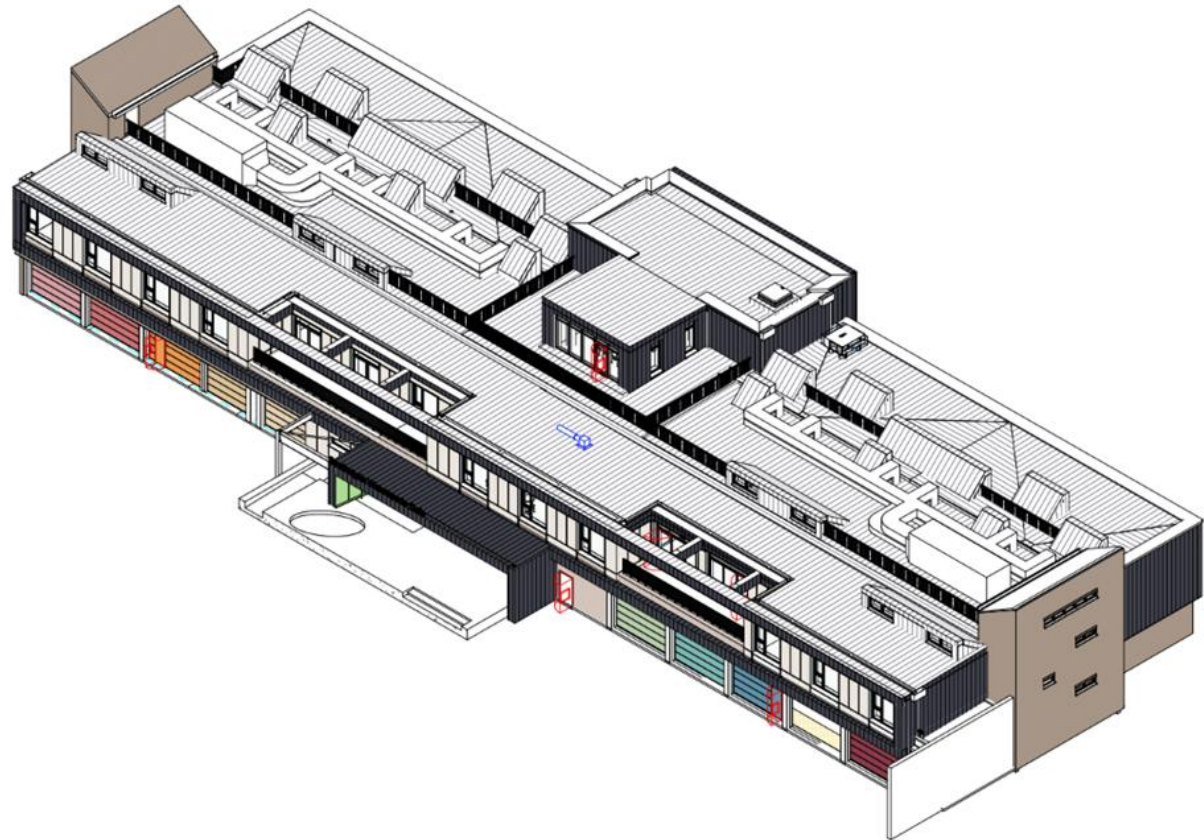

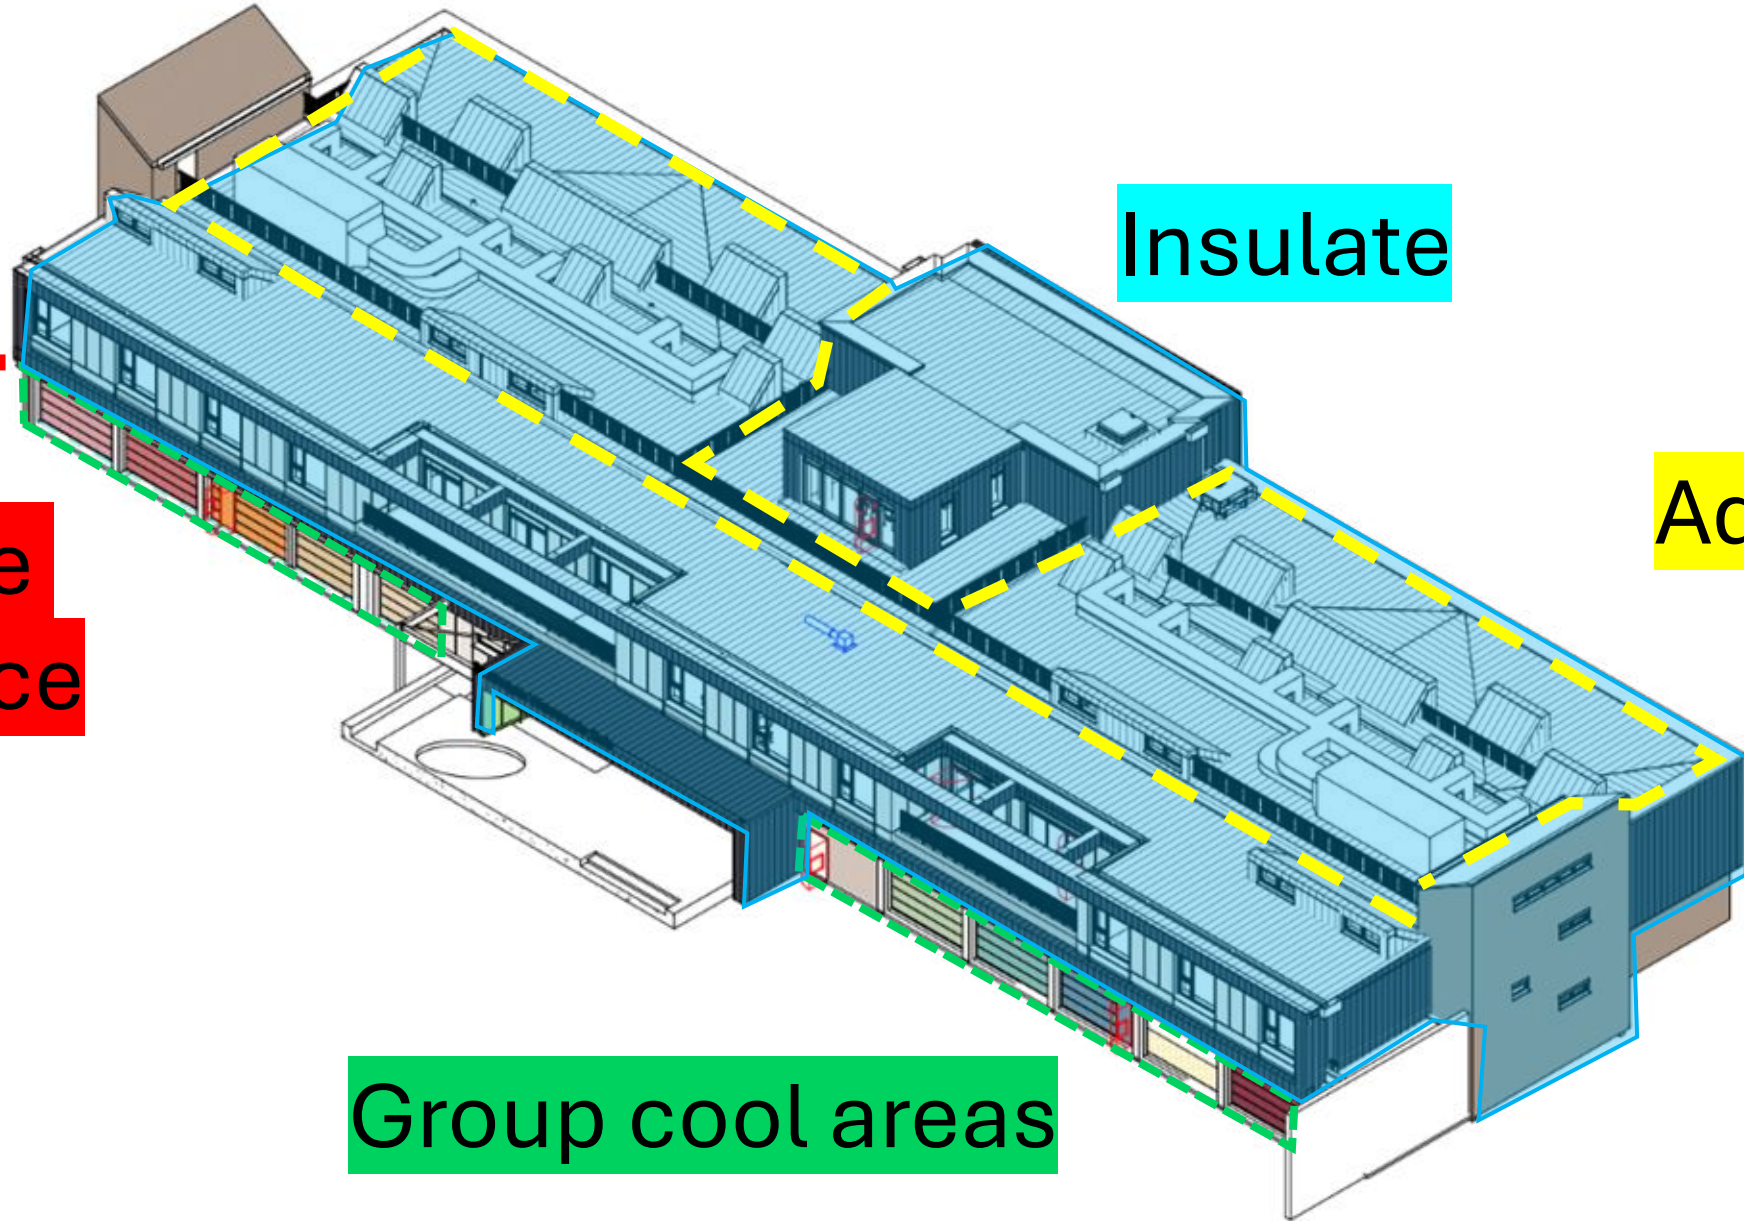

Extend onto open terrace.

Organise
accommodation to make
flexible and relevant

Demolish energy
inefficient cabins and
stories

The Energy Solution...

Insulate

Add PV

Renewable
Heat Source

Group cool areas
