

# Energy Price Benchmarking

---

Thursday 8<sup>th</sup> March

Why?

# What could we achieve?

## Savings?

Every other site I have seen was paying 1p more for electricity and 0.5-1p more for gas

1p for electricity and 0.25p for gas is 10% of Southend's overall spend

## Evidence that buying OK

Would imply that others are spending too much

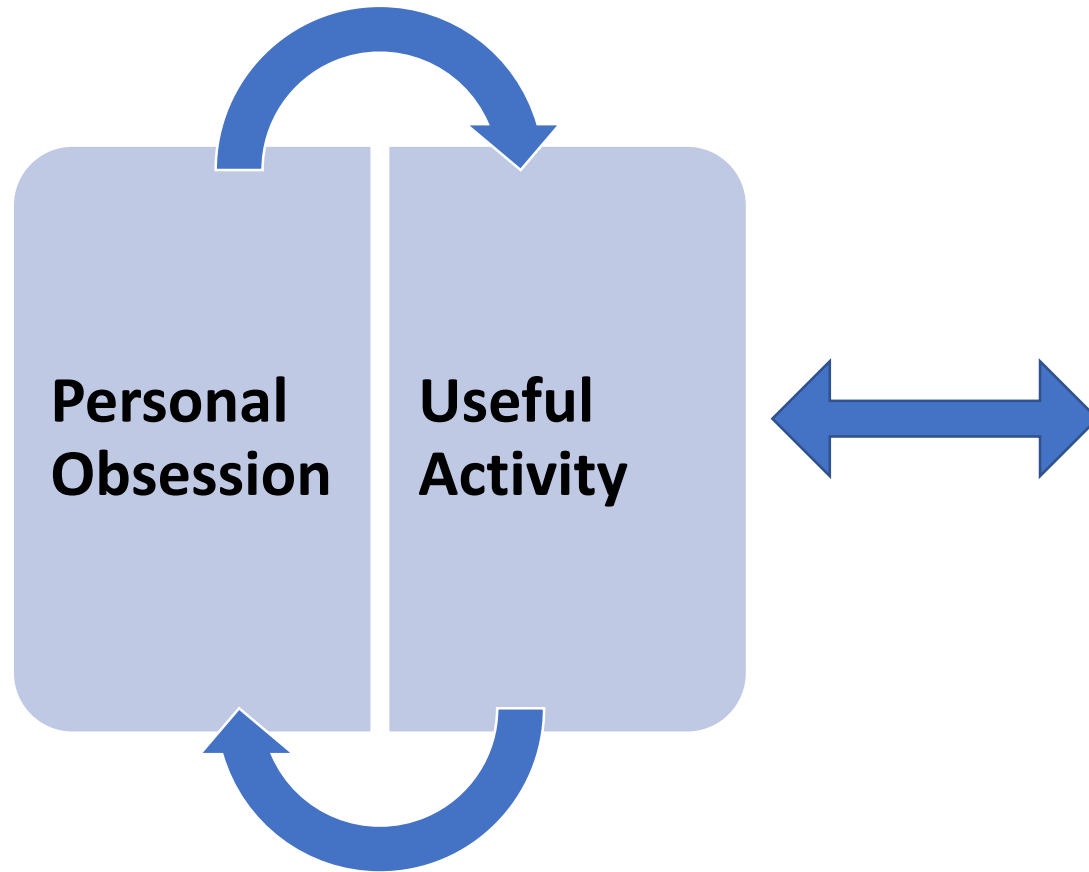

## Feels like a win-win piece of work

Southend Saves or gains comfort

Savings overall?

## Next Steps 1

- **Speak/email me or Phil Brennan to say useful or not**

## Next Steps 2

- **Speak/email me or Phil Brennan to say if you are happy to work with us and/or participate.**
