Our DNA

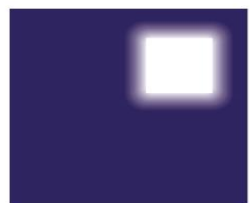

There are 6 critical success factors
for collaborative working

1. Early involvement
2. Selection by value
3. Common processes and tools e.g. BIM
4. Measurement of performance i.e. KPIs
5. Long-term relationships/Continuous Improvement
6. Aligned modern commercial arrangements

Noteworthy Highlights Cont.

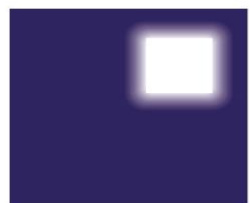

- We've noticed a significant increase in membership in 2025.
- This reflects an upturn in market conditions as organizations don't tend to be interested in 'best practice' when in survival mode!
- Currently working with WMCA & EMCCA on projects to build more homes more quickly
- Looking at planning, procurement & delivery
- The government's drive to build 1.5m homes by the end of this parliament is having an effect!
- Two main members interests are building safety & social value
